[Name Redacted]

31st March 2015

Dear [Name Redacted]

Freedom of Information – Request for Information

Thank you for your further email informing us that you were unable to locate the information contained within our disclosure log. You will find elements of your request within previous requests that we publish.

The reason why we publish is firstly there is an obligation under the Act to a publication scheme and publish regularly requested information. Secondly the transparency agenda provides information to our citizens and informs them on how we conduct our business and use the money they pay in taxes. Thirdly, publishing the information reduces the amount of resource needed to support the Act by responding to repeat requests that then allows us to place resources where they are most needed in an environment of austerity.

Notwithstanding the above we provide the information below that will be included within our next update on the disclosure log for other interested parties to view, and for us to refer to when we receive future enquiries of this type.
